New for 2027

BRIDGEWATER™

EviGsy155®

A pretty true pink, star-shaped bloom, with complementary red anthers. Flowers are 4-5" in size, covering the plant from May to July and again in September. Flowers profusely down the stems giving excellent flower coverage over the full height of the plant. Grows to 4'. Pruning type 3.

ELIZA™

EviGsy158

A large flowered clematis opens as a pale violet/blue and matures to pure white with contrasting deep red tipped anthers. The blooms are ruffled or wavy and cover the plant from June to July and again in August/September. Grows to 3'-4'. Pruning type 3.

QUEEN'S NURSE™

EviGsy159

A unique variety with variation in each bloom. Flowers from the new wood have a broad central band of deep rosy pink and with paler edges and prominent yellow anthers. Flowers from the older wood are a solid deep rosy pink. Flowers cover the plant from base to tip June - July and again August/September. Grows to 4'. Pruning type 3.

ABILENE™

Boulevard® Evipo027®

A delightful pink flower with contrasting yellow anthers. As clematis Abilene's flowers mature and fade, a central deep pink stripe becomes more prominent. Can be grown as a patio pot and in partial shade! Blooms in June and again in August.

ACROPOLIS™

Boulevard Evipo078®

A compact very free flowering clematis. It produces an abundance of bright pink flowers that are 3-4 inches. Blooms early summer through late autumn. Acropolis is very showy and grows to 4'.

ADAM'S COURAGE

This striking new clematis is strong, beautiful and abundant! Spring flowers are lavender and deep fuchsia color and more varied than the summer flowers. Summer flowers are deep violet in the center of each petal fading to a rich lavender. The lovely pointed petals create an overlapping and very full flower with stunning burgundy tipped anthers. Great repeat blooming. Blooms June - September. Grows to a height of 5-6 feet. Pruning type 2 or 3.

AVANT-GARDE™

Festoon® Evipo033®

As the name suggests, a very unusual 3" red flower with pink petaloid stamens giving the impression of a double flower and protruding trumpet. Very free flowering. Blooms July through September. Part of the "Evison/Poulsen Festoon Collection."

BARBARA HARRINGTON

An exceptional late, free flowering plant. Raised from clematis Comtesse de Bouchaud and retaining its parent's ability to flower well over a long period. The cerise colored flowers, approximately 4" in size, have pointed petals with a dark border and contrasting yellow anthers. Blooms late June through September.

BARONESS FOOKES™

EviGsy156(PBR)

Beautiful, extremely free flowering clematis has blooms that are purple/blue with a darker purple bar, red anthers and measure 4-5". Dense foliage of mid to deep green, sets a perfect backdrop for these delightful ruffled-edged blooms. Overall height is 4'. Blooms May thru July. Pruning type 3.

BERNADINE™

Boulevard® Evipo061®

This stunner produces masses of large light blue flowers with contrasting red anthers. It's amazing how many flowers it puts out in one blooming! Can be grown in full sun or partial shade. Grows to a height of 6' and blooms June through September.

BIJOU™ *Tudor® Evipo030®*

An Evison/Poulsen cultivar raised in Guernsey by Raymond Evison in 2005. Small pointed ruffled petals in pale violet/mauve with slight pinkish bar. Pink tipped anthers open to a lovely rosette shape. Very free flowering and flowers keep shape well. Blooms May through July. Nice low mounding clematis (2 feet).

BOURBON™ *Gardini® Evipo018®*

An Evison/Poulsen cultivar which has stunning, vibrant red 5-6" flowers. The round shaped flowers have contrasting yellow anthers. Ideal plant for container growing as its height is only 4-6'. Blooms June through early August.

CORINNE™ *Boulevard® Evipo063®*

This beautiful clematis has white flowers with ruffy edges and a pink/violet stripe on each petal. This compact, heavy bloomer is great for patio containers as well as the garden. It can be grown in full sun to partial shade making it a great addition. It grows to a height of 6' and blooms June through August

CRYSTAL FOUNTAIN™

Regal® Evipo038®

This is an early large flowered cultivar, lilac blue with a fountain-like center. It is an exciting new cultivar with an unusual 4-5" double flower. It is compact, free and repeat flowering, also suitable for growing in a container, on trellises as well as through small shrubs. Blooms June through September.

DIAMANTINA™ *Regal® Evipo039®*

An exceptional, free-flowering clematis with 4-6" pom-pom like blue/purple double flowers. Diamantina has many flowers on each stem and each flower lasts up to 4 weeks. Repeat flowering throughout summer. This double clematis far outperforms any other double clematis currently available!

DIANA'S DELIGHT™

Boulevard® Evipo026®

Diana's Delight has beautiful, rich blue colored flowers with light and dark tones and a creamy yellow center. This lovely clematis has a very free flowering habit. It grows to a height of 6' and blooms June through early September. Stunning!

EDDA *Boulevard® Evipo074®*

Good plant for growing in pots or containers due to its compact free flowering habit. Each flower has 6-10 petals. The central petals are shorter and paler in color, the outer petals being purple with a darker reddish purple central bar. All have pointed tips. The plant is repeat flowering from late Spring until early Autumn. Grows to a height of 3-4'.

ELPIS™ *EviGsy154(PBR)*

A very round shaped, deep rich red flower, 4-5" across, with contrasting yellow anthers. Flowers freely from May through to July, with reliable repeat flowering into September. The blooms also hold the color very well with little or no fading. With its compact habit and height of 4', Elpis would make a wonderful addition to a container where longevity of successive flowers can be fully appreciated. Pruning type 3.

Premium Varieties

GISELLE™ *Garland® Evipo051®*

This beauty has unusual star-shaped purple-pink flowers and contrasting red-purple anthers. It looks tremendous grown with purple foliaged shrubs. Can be grown in partial shade or full sun. Grows to 4-5' and blooms May through September.

GUERNSEY FLUTE™

Compact Patio EviGsy153

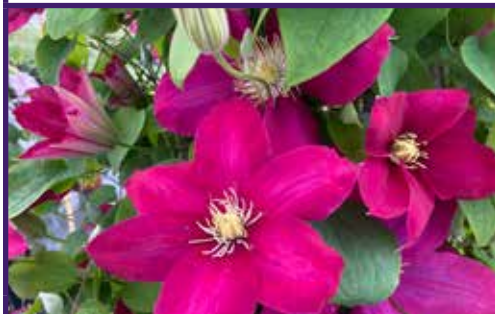

The exquisite large star-shaped, pure white flowers some 5" across with red anthers. This exceptional clematis has an unusual but endearing trait of holding, just open flower buds, for an extended period, almost like a champagne flute, hence the use of 'flute' in its name. Best grown in partial shade.

HYDE HALL™

Gardini® Evipo009®

This compact clematis is ideal for containers. Its 5-7" flowers are off-white with sometimes green or pink tinges. It blooms on the previous season's stems from May to June. Anthers are light chocolate brown.

ISSEY™

Boulevard Evipo081

Perhaps one of the most compact red varieties and a sunny location will bring the best out of its vibrant color offset by a yellow center. It makes a stunning plant when grown in a container, on an obelisk. Blooms May-June & Aug-Sept. Grows to 3-4'.

ITHEMBA™ *EviGsy157 (PBR)*

A high impact plant with bright white blooms, a delicate pink bar, with a ruffled edge petal. The complementary red filaments and anthers appear to increase the brightness of the white petals. Blooms are 4" and cover the plant from May to July and again in September. Flowers profusely down the whole stem of the plant. Grows to 3-4'. Pruning type 3.

JOSEPHINE Regal® Evijohill®

This variety has flowers with 6-8 base petals which are almost bronze, tinged with green and a darker bar, inner petals are lilac with pink bar. As the flower ages the base petals fall away giving a pom-pom effect. Blooms June through August. Grows to 8'.

KILIAN DONAHUE

The early flowers open ruby red at the center of the flower, fading to brilliant fuchsia and then orchid color at the edge of each petal. The flowers fade to lavender with a pink bar. Its dancing white anthers are burgundy tipped. It is an early bloomer and is a great repeat bloomer throughout the summer months.

KITTY™

Boulevard, Evipo097 (N).

A very compact plant near white clematis with burgundy tipped anthers. Extremely free flowering and particularly suitable for container growing. Blooms in June - July and again late August. Grows to a height of 2-3 feet. Grows well in shade or partial sun. Pruning type 3.

LINDSAY™ *EviGsy (PBR)*

Very large blue/purple spring flowers, some 6-7 inches in diameter with deep red anthers. It is free and repeat flowering in habit, blooming in June & July and again in late August. Ideal to grow in containers or small trellises. Grows to height of 6-8 feet. Prune to 12 inches in February/March.

NUBIA *Boulevard® Evipo079®*
This very free flowering clematis has stunning dark red flowers and dark red anthers. This photo is true to color! Flowers are 5" in size and grows to 5'. It blooms June through August and again in September. Blooming comes from along the whole stem so blooms appear from top to bottom of plant. It is pruning type 3 so takes a hard prune in early spring.

OLYMPIA™ *Boulevard Evipo099(n)*
Has attractive, blue single (and sometimes semi-double) blooms, with overlapping petals and yellow anthers. It flowers off the new and old growth. Very free and repeat flowering, producing flower buds from the leaf axils and end of stems. Ideal for growing in containers on the patio. Grows 3-5'.

PARISIENNE™ *Boulevard Evipo019 (n)*
A superb repeat blooming clematis that performs so well year after year. Compact, free flowering produces an abundance of pale violet flowers that are 4" across with wavy-edged petals and attractive red anthers. Bloom time early summer to late autumn. Grows to 4 ft.

POSEIDON™ *Boulevard® Evipo113 (N)*
Very pretty multicolored pink clematis, with shades of pink and hot pink on large 4-5" flowers. Heavy blooming throughout the summer months. Grows to a height of 3-4 feet. Pruning type 2 or 3.

RAVEL™ *Boulevard Evipo122*
An extremely free-flowering plant, which also repeat flowers well. Produces masses of purple/blue flowers with a dark purple center from late Spring through to late Summer. Grows well in partial shade. Grows to 4-5'

REBECCA™ *Boulevard® Evipo016®*
An Evison/Poulsen cultivar with very large flowers that are stunningly bright red (almost scarlet) with creamy yellow anthers. It is exceptionally free-flowering. Blooms May through June and August.

ROSALIE™ *'Donahros' (PP29,554)*
First flowers are a deep, two-toned rose color. Flowers then take on a multitude of pink shades all blooming at the same time. As the flower fades it has a two-toned lavender/pink flower. The dramatic burgundy anthers add to its beauty. It is very free flowering. This is Mark Donahue's second clematis introduction and is named after his grandmother, Rosalie. Grows to 7' and blooms June-September.

ROSEMOOR™ *Gardini® Evipo002®*
This "rose" colored large flowered clematis has a distinct reddish/purple color with yellow anthers, which contrast spectacularly with the color of the petals. Its flowers are 5-6" in diameter and bloom on both the previous season's stems and on current season's growth, giving it a flowering period from May to September.

SALLY™ *Boulevard Evipo077*
All light pink clematis with a deep pink central bar. Each flower has six to seven pointed petals with light brown contrasting anthers. Great repeat blooming and grows to 5'. Blooms June - September.

Premium Varieties

SAMARITAN JO™ *Boulevard® Evipo075* Very unique sharply pointed petals are silvery pink and edged in purple. The anthers are purple at the base with cream colored tips. Named in recognition of the great volunteer work that Samaritans offer to people in distress. All volunteers are known as Samaritan Jo. Grows to a height of 4-5' and blooms June through September.

SAPPHIRE INDIGO™ *Cleminov51 PP#17012* This unique clematis stays true to name with long lasting dark purple blooms that fade to deep blue with stunning dark purple to black anthers. It is a continuous bloomer June through September. It can be trained as a climber to a height of 4' or grown as a shrubby ground cover with no support. Good choice for containers. It can be grown in partial shade.

SARAH ELIZABETH™ *Boulevard Evipo098(n)* This distinct, attractive pink clematis almost seems to glow. The mass of flowers appear from late Spring until late Autumn. It produces these at the base of the plant and on new growth often producing a top to bottom blowering effect. It grows 4-5'. Can be grown in full sun or partial shade.

SWEET SUMMER LOVE™ *(pp#24044)* Sweet Summer Love gives a sweet fragrance and ease of growth. It has striking star-like, multi-colored blooms of cranberry and violet that bloom earlier and longer than the traditional white Sweet Autumn. It grows to a height of 12' and blooms July through September. Introduced by Proven Winners. This 'Proven Winner' requires a PW pot & label for each plant purchased.

TAIGA™ *(PP27591)* This clematis produces a spikey dark lavender bloom outlined in white when it first blooms. As the flower matures it opens to a double bloom showing off more of the dark lavender color. The flowers change throughout the season. Climbs to 7' and hardy to zones 6-9. Blooms June-September. .

THE DUCHESS OF CORNWALL™, *Patio and Garden Evipo118 (N)* is a good repeat flowering variety well suited for planting in containers. Early season flowers will be a violet blue but in later season and stronger light and temperatures they will be a deeper violet but softening to a near mid-blue color. It has a burst of yellow anthers. Grows to a height of 4-5 feet. Pruning type 3.

TRANQUILITE™ *Evipo0111(n)* An exceptional and attractive free flowering plant which is great for the smaller garden due to its compact habit. Tranquilite's light blue and white subtle colors make it a superb plant for growing in a shaded area. Blooms late spring to late summer. Grows to 4-5'.

TUMAINI™ *Boulevard EviGsy151* Beautiful large light violet flowers with a complimentary dark pink bar. The center of the flower holding deep red tipped anthers. The first flush of 4-5" flowers appear in early May and build in quantity throughout May and June. A second, smaller flush will be produced in September. Extremely free flowering and grows to 4'.

VICKI™ *Evipo114(n)* An exceptional and attractive, free flowering plant, from the Boulevard collection, which is ideal for the smaller garden due to its compact habit. A superb plant for growing in a shaded area with its ruffled vivid pink and magenta petals. The free flowering nature of this plant and flower life will make this a popular favorite in years to come. Grows to a height of 3-4 feet. Pruning type 3.

PURPLE VARIETIES

DANIEL DERONDA: Very large deep purple with lighter markings down the middle of each petal. A very robust grower that blooms June and September. Grows to a height of 8'.

ELSA SPATH: Rich lavender, overlapping to give somewhat of a double appearance. Red Anthers. Very free flowering.

GENERAL SIKORSKI: Very hardy dark lavender with tints of red on petals. Cream color anthers. 8-9" flowers. June and September blooming.

JACKMANII: The most profuse blooming dark purple Clematis. June, July and September blooming.

JACKMANII SUPERBA: Rich velvet purple, 5" open flowers. More rounded and slightly larger flower than Jackmanii. Blooms July-September.

MULTI-BLUE: Very double dark blue to purple 4-5" flowers. Blooms late spring/early summer and again late summer on to fall, but always double flowers. One of the best double flowering Clematis!

PERRINS PRIDE: 5-7" rounded petals of deep purple even darkening towards the edges. Striking bronze anthers. Profuse blooming Clematis throughout the summer, June through September.

THE PRESIDENT: Deep purple with purple anthers. Continuous bloomer and does not fade in the sun. Large 7-8" flowers bloom June-September.

VITICELLA, ETOILE VIOLETTE : Very vigorous prolific blooming 3-4" purple flowers. Blooms July-September.

VITICELLA, POLISH SPIRIT: Very rich purple-blue 3-4" open flowers. Outstanding cultivar raised by Brother Stefan Franczak in Poland. Flowers profusely and suitable as a cut flower.

WARSAW NIKE: A rich velvet reddish purple variety which produces 5" wide open flowers in late May through September. Flowers are composed of six to eight overlapping petals, each deeply grooved along the center.

RED VARIETIES

CARDINAL WYSZYNSKI: A magnificent, very free flowering Polish introduction with large 6-8" glowing crimson flowers, each highlighted by a central cluster of dark anthers. A very vigorous Clematis. Blooms July-September.

ERNEST MARKHAM: Magenta-red large flower with gold anthers. Very vigorous grower, blooming July, August and September. We feel the best red.

MME. EDOUARD ANDRE: Deep velvet red, 6" flowers with cream anthers. Vigorous plant and heavy bloomer. Blooms July-August.

NIOBE: Very dark magenta-red pointed petals with gold anthers. Blooms June, August and September. A true red!

ROUGE CARDINAL: Large deep velvety crimson flower with red anthers. Blooms June-September.

RED VARIETIES (continued)

SUNSET: Dark velvet red 5-7" flowers with purple edges. Vigorous growing plant blooming continuously May-September. A real eye catcher!

VILLE DE LYON: Very large carmine-red petals with lighter centers. Blooms June-September. Very rich velvety flower!

WESTERPLATTE: Rich, velvety red, with dark red anthers. Flowers are 4-5" in size. Very free flowering. Blooms late June to early Autumn. Suitable for container culture.

PINK VARIETIES

COMTESSE DE BOUCHAUD: Velvet rose-pink large flowers with yellow anthers. A profuse bloomer. Our best selling pink Clematis.

HAGLEY HYBRID: Medium-size rich pink flowers with ruffly edges and reddish anthers. Vigorous grower with 5-6" flowers blooming June and September.

JOHN PAUL II: Light pink 5-6" flowers. Very vigorous grower and very showy. Blooms May, June and September.

PHILU: This lovely pink clematis will bloom double on early spring blooms and then later blooms are single. With its pretty pink color and deeper toned bar it is a great addition to any garden. It grows to a height of 6' and blooms May through July and September.

PINK CHAMPAGNE: 5" deep rosy-pink, very free flowering, compact plant. Also known as Kakio, from Japan. Blooms May, June, August and September. It is a real eye-catcher.

BLUE VARIETIES

BLUE ANGEL: Raised by brother Stefan Franczak in Poland. The pale lavender blue flowers have delicate crinkly edges and recurve slightly. Anthers are creamy yellow. Very free flowering and holds well as a cut flower. Blooms June-August.

DURANDII: Rich bell-shaped indigo blue 5-6" flowers with white anthers. It makes an interesting cut flower. Bloom July, August and September.

H.F. YOUNG: True mid-blue with very wide overlapping petals; giving a very large 7- 8" flower. Very noticeable cream colored anthers and very free flowering.

PRINCE CHARLES: A compact plant with profuse mauve-blue 4" flowers. The flowers are semi nodding with slightly twisted petals. The anthers are yellow. Blooms July through early September.

RAMONA

SILVER MOON

RAMONA: Lavender-blue flower with dark anthers. Blooms July, August and September. One of our best selling varieties!

SILVER MOON: Very large 6-7" silvery mauve flowers, giving a most unusual color clematis. Flowers have creamy-white anthers, and the 6-8 petals overlap, making a very full flower. Blooms June, July and late August. Does well in full to partial shade.

WILL GOODWIN: True blue with large overlapping petals and gold anthers. June through September blooming.

WILL GOODWIN

MONTANA, ELIZABETH

MONTANA VARIETIES

Montana Clematis varieties are probably the easiest to grow, very prolific blooming and some of the most vigorous growers. Best for zone 5 and south. All varieties bloom May and June.

MONTANA, ELIZABETH: Soft pink flowers with a vanilla scent and a very vigorous grower.

MONTANA, MAYLEEN: Small satin pink open flowers. Bronze foliage with strongly scented flowers.

MONTANA, RUBENS: Color varies to season from a light pink to deep rose-pink with purplish leaves. Vanilla fragrance.

MONTANA, MAYLEEN

MONTANA, RUBENS

WHITE VARIETIES

DUCHESS OF EDINBURGH: Rosette shaped double white flowers with yellow anthers. Blooms May, June and September.

GUERNSEY CREAM: Very light yellow with cream anthers. Large 5-7" flowers. This is a beauty! The name gives the color description. Blooms in June and August.

HENRYI: Very large pure white flowers with brown anthers. Blooms June and September. Beautiful!

HULDINE: Medium size (4-5") white flowers with yellow anthers. Very vigorous grower. Our best repeat white blooming Clematis.

JOHN HUXTABLE: A chance seedling from cl. 'Comtesse de Bouchaud,' it retains most of its parents' characteristics, except having creamy white flower color. The flowers are 4" in diameter, and the white petals are offset by yellow-white anthers. It grows to a height of 9' and blooms June-August.

MISS BATEMAN: Round pure white flowers with dark showy anthers. Very free flowering plant.

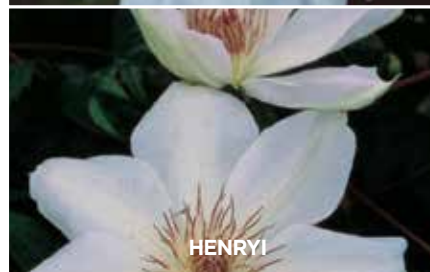

SNOW QUEEN: A large white variety with 6" open flowers. Blooms May, June and August. Very free flowering.

BI-COLORED VARIETIES

ASAO: 4-5" deep rosy-pink flower with white center bar on each petal. Very free flowering in spring with attractive seed heads. An outstanding Clematis from Japan.

BEES JUBILEE: Delicate pink with deep red bar down the middle of each petal with yellow anthers. Does not fade in the sun. Blooms May, June and September.

CANDY STRIPE: This two toned lavender and pink striped clematis is a pretty addition to your garden. It grows to a height of 10' and blooms May-June and August. Suitable for a part shade area.

DR. RUPPEL: Pink lavender ruffly edge petals with deep red center bar. Great for greenhouse production. Blooms May, June and September.

MRS. N. THOMPSON: Deep blue with a bright scarlet bar. Strikingly colorful and will always command attention wherever grown. Blooms May, June and September.

NELLY MOSER: Pale pink with red bar down the middle of each petal. Will grow in semi-shade. Blooms June and September.

VITICELLA, VENOSA VIOLACEA: 4-5" flowers of white background with purple veins throughout, turning all purple on the edges. Does well in sun and semi-shade. Blooms July, August and September.

SMALL FLOWER VARIETIES

ALIONUSHKA: This non-clinging Clematis has 2-3" semi-nodding rich mauve pink flowers, that has a satin sheen when young. Blooms July-September.

ALPINA, BLUE DANCER: 2-3" long pale blue flowers that have narrow, twisted and pointed petals. Blooms May-June.

ARABELLA: The round semi-nodding flowers are 2-3" in size. Flowers are rosy purple flushed with red and cream anthers. Non-clinging and free flowering. Blooms June- September.

FARGESIOIDES: A very vigorous and free flowering Clematis. The 1.5" flowers are white and somewhat fragrant. Blooms July-September.

HERACLEIFOLIA, MRS. ROBERT BRYDON: Bluish-white 1" flowers in large cluster. Extremely vigorous and very free flowering. Suitable cut flower and we have found to be one of the hardiest.

INTEGRIFOLIA: This herbaceous, non-clinging Clematis has bell-like flowers which are 1.5" in size. Flowers vary from light blue to deep blue. Blooms July-September.

MANDSHURICA: A hardy, deciduous, herbaceous clematis known for its fragrant, star-shaped white flowers that bloom in summer. It grows 3-6 feet tall as a non-clinging vine and thrives in full sun, making it ideal for back-of-border planting. Blooms June - July and again in September. Pruning type 3.

PANICULATA: Very vigorous grower with clusters of small very fragrant white flowers. Blooms August-September. A real winner. Also known as Sweet Autumn.

ROGUCHI: The 2" bell-shaped flowers are intense deep blue/purple with lighter blue recurved petals. Flowers fade to indigo-blue. This lax climber is fragrant and very free flowering. Blooms June-September.

TANGUTICA: Striking small yellow bell-shaped flowers. Fast growing hardy vine. Blooms July-October.

TEXENSIS, DUCHESS OF ALBANY: Pink bell-shaped flowers with a cherry red bar. Blooms July-October.

TEXENSIS, ETOILE ROSE: Semi-nodding flowers are 2" in size. Inside color of petal is scarlet pink with yellow anthers. Outside petal is deep satiny pink, free flowering. Blooms July-September.

TEXENSIS, GRAVETYE BEAUTY: Small 2-3" tulip-type flowers. The 4-6 petal flowers are a deep red with reddish brown anthers. Very stunning! Blooms July- September.

TEXENSIS, PRINCESS DIANA: Miniature tulip-like flowers are 2" long. Petals are whitish-pink outside with a deep pink central bar. Inside petals are rich pink with a deeper pink bar. Blooms June-July and September.

TRITERNATA RUBROMARGINATA: Slightly scented, 1.5" starlike flowers with pink edges and cream-colored anthers. It is vigorous and free flowering. Grows 10-13' and blooms July-September.

VITICELLA, BETTY CORNING: A charming, fragrant, nodding flower with four petals of light blue. The 2" deep flowers have recurving tips to the petals. Blooms July-September. Fragrant.

VITICELLA, MME. JULIA CORREVON: 4" true red semi-campanulate flowers. Vigorous grower, flowering most of the summer season. Very stunning color.

VITICELLA, PURPUREA PLENA ELEGANS: Extremely showy double rose-purple flowers. Blooms July-September. A real winner.

PERENNIAL VINES

BOSTON IVY: Lush, green foliage in the summer that transitions to vibrant red in fall. Fast growing to a height of 30 feet. Grabs easily to surfaces.

HONEYSUCKLE, Dropmore Scarlet: A perennial vine that is extremely hardy in zones 4-9. This fast growing vine can cover a 10-12 foot wall. The tubular scarlet-orange blooms give off color from late June through September.

HONEYSUCKLE, 'Major Wheeler': This fast growing vine has brilliant red tubular flowers with yellow tips. Hummingbirds love the blooms and it is very mildew resistant. Blooms June - September.

HONEYSUCKLE, 'Mandarin': Tubular, clusters of bicolor orange and gold flowers. Grows to height of 16', blooms June - August.

HONEYSUCKLE, 'Serotina': Crimson buds that open to dark red outer petals with yellow and white inner petals. Blue green foliage that grows to 18'. Hardy in zones 5-9. Blooms all summer.

HONEYSUCKLE, 'PW Kintzley's Ghost': This is a very unique vine. Though it has nice yellow flowers in summer, its main feature are the unique blue saucer-like leaves that form around them. Non-invasive, hardy and easy to grow. Grows to a height of 6-10'. This Proven Winners requires PW pot and label for each plant purchased.

HONEYSUCKLE, 'PW Scentsation': The sweetly scented yellow flowers bloom from mid-spring to late summer. Beautiful grown on a trellis or fence. Grows to 10'. Can be pruned after flowering is done. This Proven Winners requires PW pot and label for each plant purchased.

SILVER LACE VINE (Polygonum Aubertii): Extremely fast-growing vine with profuse fragrant white flowers. Blooms in late summer and fall. Great fence and wall cover. Grows 20 feet and more.

Clematis Collections

"THE PREMIUM COLLECTION"

Order "The Premium Collection" and you'll receive 50-2.5" or 32-3.5" pots assorted with six outstanding new premium varieties and jumbo labels.

"THE DONAHUE COLLECTION"

We've put together a collection of six clematis varieties that are outstanding in pot production and in the garden. Order "The Donahue Collection" and you'll receive 50-2.5"-3.5" pots assorted with these outstanding varieties and jumbo labels. Our collection consists of:

LARGE AND SMALL FLOWER COLLECTIONS

Donahues selects a good assortment of colors for each collection. All Clematis are shipped with a color picture "stik-stake" label in each pot.

50 Pot

- 2.5" Large Flower Collection (4-6 varieties)
- 2.5 Small Flower Collections (4-6 varieties)

32 Pot

- 3.5" Large Flower Collection (4-6 varieties)
- 3.5" Small Flower Collection (4-6 varieties)

200 Pot

- 2.5" Large Flower Collection (25 ea 8 varieties)
- 2.5" Small Flower Collection (25 ea 8 varieties)

CLEMATIS LINERS

Our 2.5" Clematis liners are well rooted grown in a 2.5" deep pot. These are ideal for finishing 1 gallon pots. Very heavily rooted plants! Each plant is shipped with a small color picture label.

Our 3.5" Clematis liners are well rooted in a 3.5" deep pot. These plants will finish a 1 gallon pot more quickly than the 2.5" liner. They can also be used in larger containers. Each plant is shipped with a small color picture label.

#1 Container Finished Material

Order Early!

FINISHED CLEMATIS

Let us grow beautiful Clematis for your retail store!

Grown in #1 containers, these vines are shipped mid-March through September. Many varieties are shipped in bud or bloom, all with a brightly colored violet pot, a lock-on trellis and a large 'Jumbo Portrait' label. Choose from our complete list of clematis varieties and other vines. *Order early!*

MINIMUMS

- 50 plants for pick up.
- 100 plants for delivery within 75 mile radius of Faribault.

ANNUAL VINES

THUNBERGIA: An annual vine also known as Black Eyed Susan. It is a vigorous growing vine that can grow to 6'-8' in a single season. Thunbergia are great for baskets, large containers and trellises. The bright colored flowers bloom all summer.
Available in Rose, Orange and Yellow.

MORNING GLORY: Heavenly Blue is an annual vine that bloom throughout the summer months. Available only in our #1 finished program
